

Correction -- Amerigon Incorporated

September 13, 2004

In the news release, Amerigon (NYSE: ARGN - News) Subsidiary BSST Announces Agreement With Carrier Corporation and United Technologies Research Center - a Subsidiary of the Central Research Unit of United Technologies Corporation - to Explore Development of Industrial and Aerospace Climate Control Systems, issued earlier today by Amerigon Incorporated over PR Newswire, we are advised by the company that the headline should read "Amerigon Subsidiary BSST Announces Agreement With Carrier Corporation and United Technologies Research Center - a Subsidiary, and the Central Research Unit of United Technologies Corporation - to Explore Development of Industrial and Aerospace Climate Control Systems" rather than "a Subsidiary of the Central Research Unit" and that the first paragraph, first sentence, should read "Amerigon Incorporated (Nasdaq: ARGN - News) today announced that its wholly owned subsidiary, BSST LLC, signed an agreement with Carrier Corporation, a subsidiary of United Technologies Corporation (NYSE: UTX - News), and United Technologies Research Center (UTRC)," rather than "a subsidiary of United Technologies Corporation (NYSE: UTX - News) and United Technologies Research Center (UTRC)" as originally issued inadvertently.
